

# ERNEST GIESECKE, PIANO EXPERT TO VISIT KAUAI

I am arranging to visit Kauai on my regular annual tuning trip early in April with headquarters at Lihue Hotel. Having had 14 years' experience in Hawaii, besides 18 on the mainland, enables me to give your piano or player piano just what care and adjustment it may require.

The piano is the most expensive and most abused article in the average home. It has about 230 highly tempered steel strings ranging in gauge from 13 to 22, when drawn to international pitch, exert a strain on the frame of the piano approximately 18 tons. Other stringed instruments with a few pounds strain are tuned every time they are played. A piano out of tune and out of adjustment is a handicap to the performer, as well as listener. "Let me straighten out your discords and create harmony in your home."

Very truly yours,  
ERNEST GIESECKE,  
Piano Expert.  
Pianos bought and sold.  
(Feb. 21st)

## BUSINESS PROPERTY FOR SALE

The business property of the M. S. Tomas Co., at Kapaa, is for sale. This property, consisting of a lot 75 x 100, a two story store building, a residence and a garage, is located on the main business thoroughfare of Kapaa and at about the center of the town. For further particulars see

M. S. HENRIQUES  
Trustee M. S. Tomas Co., Creditors

## WALES Portable Adding Machine

There Are Three Prime Requisites in the Selection of Any Adding Machine. In these Wales Stand Pre-eminent

**1 speed**  
Every form of calculation is done with the least mental and physical effort because of Wales triple visibility and easier handle and keyboard action.

**2 accuracy**  
The Wales provides the greatest number of mechanical safeguards against human error.

**3 durability**  
Wales machines from 13 to 15 years old are today giving continuous service on the hardest kind of work.

## "Love Pirates of Hawaii" Is To Be Repeated Soon

Arrangements have been made for the second presentation of the comic opera, "The Love Pirates of Hawaii," which was recently given by the students and faculty of the Kauai high school to a capacity house and pronounced by all as the hit of the season.

The courtesy of Messrs Baldwin and Damkroger has made it possible to give this second hearing in the Makaweli community house. This will afford the opportunity for a large number of people from the west side who were not able to be present at the first presentation to see and hear this sparkling bit of island romance.

The entire original cast will assume their former roles. The pirate chief and his motley and blood-thirsty crew; Miss Primer not as austere as she might appear; delightful Dorothy Dear and Billy the brave; the Hawaiian girls and all the rest. A wonderfully well chosen cast and balanced chorus.

Added features will occupy the interim between acts. An artist of wide theatrical and musical experience has promised a rendition of "When Mose Blowed," "A Ride in the City Pie Wagon," and other mirth provokers. The Melancholy Melody Manglers are slated for a couple of funeral marches. All in all, it will be an evening filled with harmony and wholesome laughter.

Tickets are on sale at the McBryde store, Elele; Makaweli plantation store, Makaweli; and C. B. Horgaard & Co., Waimea. Reserved seats 75c. General admission 50c; children 25c. The proceeds will be divided between the high school athletic fund and a fund being raised to send delegates to the Older Boys' conference to be held in Honolulu (March 30 to April 3).

## 248 SHEEP DIE IN THE HOLD OF KINAU

Lack of ventilation in the hold of the steamer Kinau resulted in the death of 248 sheep which arrived yesterday morning. They were shipped from the Gay & Robinson ranch on Niihau to be slaughtered and sold as mutton to the local market, surviving the trip were 152 sheep which were huddled in with the dead ones. Because of rough seas the hatches were closed so securely that the animals were smothered to death.

Otto Ludloff, agent of the Humane society, meets all the boats from the other islands and discovered the sheep in this condition. He said: "The trip from Kauai is a very rough one and the boats should be prepared for stormy seas without having to sacrifice animals in this manner. Cruelty to animals on island boats is one of the greatest sources of work for the Humane Society. Two weeks ago 400 sheep were sent here with only one death, but that does not prove the method safe. I've been told by sailors on these steamers that in the past there have been shipments of 500 sheep when only one arrived alive. Sheep suffer excruciatingly in such a death, which can hardly be called a sanitary means of slaughter."

—Star-Bulletin.

## DYNAMITERS SENTENCED TO FROM FOUR TO TEN YEARS

Judge James J. Banks, in the circuit court, Saturday, states the Advertiser, sentenced each of the 15 Japanese recently convicted on a charge of criminal conspiracy in connection with the dynamiting of the house of T. Sakamaki, Olua Hawaii, in May, 1920, to imprisonment at hard labor in the territorial penitentiary for not less than four nor more than ten years.

Counsel for the Japanese noted exceptions to the judgment and sentence of the court and 30 days were allowed in which to file a transcript of the evidence. The case according to present intentions, will be carried to the territorial supreme court on exception.

## GOVERNOR REFUSES TO APPROVE PETITION OF THE UNITED WORKERS

Claiming that to legalize an organization whose possible membership have condemned Americans and Americanism in unmeasured terms would be clearly and dangerously un-American, Governor Wallace R. Farrington has refused to approve the petition for a charter for the United Workers of Hawaii, which was recently organized by industrial leaders for the purpose of bringing under one wing workers of all races. The petition was filed in the Governor's office some time ago by members of the central labor committee.

## U. of H. To Give Pineapple Course

A short course for pineapple field men is offered by the University of Hawaii, commencing March 27th and running for one week. The course is planned especially for experienced field men familiar with the work of growing pineapples, rather than for beginners. The lessons given in this course will be a simple presentation of the scientific principles underlying the field practice. The lessons are given in part by the University of Hawaii professors and in part also, by experts outside the university.

Any persons in the territory who wishes to be entitled to enroll in this course. It is expected that 30 or 40 men from several large corporations will attend, and it is hoped that some of the individual producers will also be present.

The university is offering this short course as part of its extension service program for the purpose of advancing the pineapple industry in these islands. In this project the Pineapple Packers Association is heartily co-operating as are also the H. S. P. A. experiment station and the territorial board of agriculture and forestry.

No tuition or other fee is made for this course. The instruction being offered free to all who wish to attend. The nature of the program may be seen in the outline below:

**MONDAY—**  
8:00 a.m.—Fundamental Requirements of Plants; President A. L. Dean.  
9:15 a.m.—Chemical Aspects of Soil Fertility; F. T. Dillingham, professor of chemistry.

10:30 a.m.—Physical Properties of Soils; L. A. Henke, professor of Agriculture.  
1:30 p.m.—Laboratory and Field Studies in Soils; Professors Krauss and Henke, and Wm. Baldwin of Haku Fruit & Packing Co.

**TUESDAY—**  
8:00 a.m.—Chief Requirements of the Pineapple Plant; Dr. H. L. Lyon, H. S. P. A. experiment station, in charge of pineapple investigations.  
9:15 a.m.—Physiological Studies of Pineapple Plants; Dr. H. F. Bergman, professor or botany.

10:30 a.m.—The Manufacture of Fertilizers; C. C. James, Pacific Guano & Fertilizer Co.  
1:30 p.m.—Visit fertilizer works, to observe processes of manufacture, etc.

**WEDNESDAY—**  
8:00 a.m.—Improving Pineapples by Selection and Breeding; A. D. Shamel, U. S. Department of Agriculture.  
9:15 a.m.—Fertilization and Tillage of Pineapple Plants; F. G. Krauss, professor or agronomy.

10:30 a.m.—Discussion on Tillage and Preparation of the Soil, led by H. A. White, manager, California Packing Corp.  
1:30 p.m.—Laboratory Studies in Insect structure, etc.; D. T. Fullaway, and Prof. Crawford.

**THURSDAY—**  
8:00 a.m.—Pineapple Wilt; Dr. H. L. Lyon.  
9:15 a.m.—Pineapple Wilt, discussion on experiments, etc.  
10:30 a.m.—Quarantine and Protection Against Pests and Diseases; E. M. Ehrhorn, territorial board of agriculture and forestry.  
1:30 p.m.—Visit Plant Quarantine Station; E. M. Ehrhorn.

**FRIDAY—**  
8:00 a.m.—Some Economic Problems in the Pineapple Industry in Hawaii; Dr. Romanzo Adams, professor of economics.  
9:15 a.m.—Handling Pines for Shipment; C. E. Barter, California Packing Corp.  
10:30 a.m.—How to Conduct Field Experiments; Dr. H. L. Lyon.  
1:30 p.m.—Open.

**SATURDAY—**  
8:00 a.m.—The Evolution of Plant Housing in Hawaii; Donald S. Bowman, director of Industrial Welfare, H. S. P. A.  
9:15 a.m.—Feeding Plantation Animals; Prof. L. A. Henke.  
10:30 a.m.—Reserved for discussion or presentation of any special subject.

## "DOROTHY" OF THE LOVE PIRATES FROM MAKAWELI

Miss Catherine Fernades, who takes the part of Dorothy Dear, daughter of a plantation manager in the comic opera, "The Love Pirates of Hawaii," lives in Makaweli and her many friends and acquaintances in that section are looking forward with pleasant anticipation to seeing her as that character when the opera will be given in the Makaweli Community House on the night of Saturday, March 25th.

## FACTORS CONTINUES ITS DIVIDEND RATE

The American Factors Ltd., will continue to pay 75 cents a share per month dividend on its stock as the result of a vote taken at a directors' meeting last week. This is at the rate of nine per cent.

## Striking an Average

"Why do you occupy two seats?" asked the strap-hanger.  
"To even things up," answered the grumpy man. "Half the time I don't get any seat at all."—Toledo Blade.
